COMMENTS: (strengths, areas for growth, next steps):

Ron has completed a very successful teacher candidate placement session in our intermediate division at Churchill Elementary. He was well-organized in planning and implementing his language and science units and delivering his lessons. He developed meaningful lessons based on the required expectations and included motivating activities to maintain a high level of interest. He responded knowledgeably to student questions and expressed his ideas clearly, fluently and was poised with confidence in maintaining a positive learning environment.

Ron gained practical experience in developing assessment strategies. He effectively and consistently created rubrics, monitored student progress and responded with regular and specific feedback to students while using constructive criticism regarding work that was below expected standards. He established classroom rules which were enforced when the need arose. His classroom management strategies, as well as his assessment practices will continue to develop as he gains continued teaching experience.

Ron worked very well with the other teacher candidate, as he shared ideas and worked collaboratively. He also assisted other teacher candidates in the intermediate division and volunteered his time and expertise in helping the high school robotics team. Ron reflected on constructive supervisory comments regarding his teaching and made appropriate changes to specific areas.

He clearly demonstrated by the interaction he had with students that teaching is a passion to him. It has been a pleasure to have had Ron as a teacher candidate in our classroom. His initiative, energy and enthusiasm enabled him to have much success. I wish Ron much success as he returns to classes at Lakehead University and prepares for the Spring teaching session.
